

State Residential Facilities for Adults
(as of November 2013)

Licensing Department	Facility Type	Population Served	Number of Facilities	Total Capacity	Description of Facility (verbatim from department websites)
CDSS	Adult Residential Facility (ARF)	Adults under 60 with physical, developmental, and/or mental disabilities	5,119	39,482	Adult Residential Facilities (ARF) are facilities of any capacity that provide 24-hour non-medical care for adults ages 18 through 59, who are unable to provide for their own daily needs. Adults may be physically handicapped, developmentally disabled, and/or mentally disabled.
CDSS	ARF with Special Health Care Needs	Individuals with developmental disabilities who are being released from specified developmental centers and have special needs	31	150	Adult Residential Facilities for Persons with Special Health Care Needs provide 24-hour services in a homelike setting, for up to five adults with developmental disabilities, who are being transitioned from a developmental center, and who have special health care and intensive support needs.
CDSS	Residential Care Facility for the Elderly (RCFE)		7,474	146,098	Residential Care Facilities for the Elderly (RCFE) provide care, supervision and assistance with activities of daily living, such as bathing and grooming. They may also provide incidental medical services under special care plans. The facilities provide services to persons 60 years of age and over and persons under 60 with compatible needs. RCFEs may also be known as assisted living facilities, retirement homes and board and care homes. The facilities can range in size from six beds or less to over 100 beds. The residents in these facilities require varying levels of personal care and protective supervision. Because of the wide range of services offered by RCFEs, consumers should look closely at the programs of each facility to see if the services will meet their needs.
CDSS	RCFE – Continuing Care Retirement Community Contract		96	29,606	CCRCs offer a long-term continuing care contract that provides for housing, residential services, and nursing care, usually in one location, and usually for a resident's lifetime. All providers offering continuing care contracts must first obtain a certificate of authority and a residential care facility for the elderly (RCFE) license. In addition, CCRCs that offer skilled nursing services must hold a Skilled Nursing Facility License issued by the Department of Health Services.

State Residential Facilities for Adults
(as of November 2013)

Licensing Department	Facility Type	Population Served	Number of Facilities	Total Capacity	Description of Facility (verbatim from department websites)
CDSS	Residential Care Facility for the Chronically III	Adults with HIV or AIDS	19	291	Residential Care Facilities for the Chronically Ill (RCFCI) are facilities with a maximum licensed capacity of 25. Care and supervision is provided to adults who have Acquired Immune Deficiency Syndrome (AIDS) or the Human Immunodeficiency Virus (HIV).
CDSS	Social Rehabilitation Facility	Adults recovering from mental illnesses	98	1,228	A Social Rehabilitation Facility is any facility that provides 24-hour-a-day non-medical care and supervision in a group setting to adults recovering from mental illnesses, who temporarily need assistance, guidance, or counseling.
CDPH	Intermediate Care Facility (ICF)		5	410	Intermediate care facility is a health facility, or a distinct part of a hospital or skilled nursing facility which provides inpatient care to patients who have need for skilled nursing supervision and need supportive care, but who do not require continuous nursing care.
CDPH	Intermediate Care Facility - Developmentally Disabled (ICF-DD)	Individuals with developmental disabilities	10	808	Intermediate care facility for the developmentally disabled is a health facility which provides care and support services to developmentally disabled clients whose primary need is for developmental services and who have a recurring but intermittent need for skilled nursing services.
CDPH	Intermediate Care Facility - Developmentally Disabled Habilitative (ICF-DDH)	Individuals with developmental disabilities	760	4,695	Intermediate care facility for the developmentally disabled habilitative is a health facility with a capacity of 4 to 15 beds which provides 24-hour personal care, habilitation, developmental, and supportive health services to 15 or fewer developmentally disabled persons with intermittent recurring needs for nursing services, but have been certified by a physician and surgeon as not requiring availability of continuous skilled nursing care.
CDPH	Intermediate Care Facility - Developmentally Disabled Nursing (ICF-DDN)	Individuals with developmental disabilities	419	2,573	Intermediate care facility for the developmentally disabled – nursing is a health facility with a capacity of 4 to 15 beds that provides 24-hour personal care, developmental services, and nursing supervision for developmentally disabled persons who have intermittent recurring needs for skilled nursing care but have been certified by a physician and surgeon as not requiring continuous skilled nursing care. The facility serves medically fragile persons who have developmental disabilities or demonstrate significant developmental delay that may lead to a developmental disability if not treated.

State Residential Facilities for Adults
(as of November 2013)

Licensing Department	Facility Type	Population Served	Number of Facilities	Total Capacity	Description of Facility (verbatim from department websites)
CDPH	Skilled Nursing Facility		1,287	123,181	Skilled nursing facility is a health facility or a distinct part of a hospital which provides continuous skilled nursing care and supportive care to patients whose primary need is for availability of skilled nursing care on an extended basis. A skilled nursing facility provides 24-hours inpatient care and, as a minimum, includes physician, skilled nursing, dietary, pharmaceutical services and an activity program.
CDPH	Congregate Living Health Facility	Three categories: 1) mentally alert with physical disabilities; 2) diagnosis of terminal or life-threatening illness; or 3) individuals with catastrophic or severe disabilities	55	456	Congregate living health facility is a residential home with a capacity of no more than 12 beds (except those operated by a city or county which may have a capacity of 59 beds), that provides inpatient care, including the following basic services: medical supervision, 24-hour skilled nursing and supportive care, pharmacy, dietary, social, recreational, and at least one type of the following services: services for persons who are mentally alert, physically disabled persons, who may be ventilator dependent; services for persons who have a diagnosis of terminal illness, a diagnosis of a life threatening illness, or both; services for persons who are catastrophically and severely disabled. The primary need of congregate living health facility residents shall be for availability of skilled nursing care on a recurring, intermittent, extended, or continuous basis. This care is generally less intense than that provided in general acute care hospitals but more intense than that provided in skilled nursing facilities.
(DDS-administered)	Developmental Center (licensed as SNF and ICF-DD)*	Individuals with developmental disabilities	4	1,348** (439 SNF, 909 ICF-DD)	These facilities provide services to individuals who have been determined by regional centers to require programs, training, care, treatment and supervision in a structured health facility setting on a 24-hour basis.
(DDS-administered)	State Operated Community Facility (Canyon Springs) (licensed as ICF-DD)	Individuals with developmental disabilities	1	51** (ICF-DD)	Canyon Springs is designed to provide residential services, treatment, and training for up to 63 adults who have developmental disabilities and challenging behavior issues.

*Note: The 4 DCs are licensed as General Acute Care Hospitals and the living units are ICF/DDs and SNFs. Each DC has a small Acute Care unit as well. The Acute units are for short-term care, not residence.

**DDS numbers are census, not capacity
